Café **41** was once one of Pretoria's best-kept secrets, but this unique franchise is fast gaining acclaim, and for good reason too.

The vibrant atmosphere that greets one on entering any of our restaurants is accentuated by the retro inspired décor. Warm colours and moody lighting give one the impression that we are more than an eatery; it is truly an experience, a feast for all the senses. We are a sophisticated, cosmopolitan and informal venue. With our fans twirling lazily from the ceiling, burnt orange walls split in half with trendy tiny tile features with tables and chairs in sleek combination creates a Casablanca feel, perfect to join friends or for business.

We offer a vibrant atmosphere; it is a place where a meal means pleasure: pleasure in eating, enjoying the company of friends and drinking good wine. The cuisine is creative, balanced and full of flavours, aromas and textures.

We are proud to say that we've received the Diners Club International Wine Awards for the following:

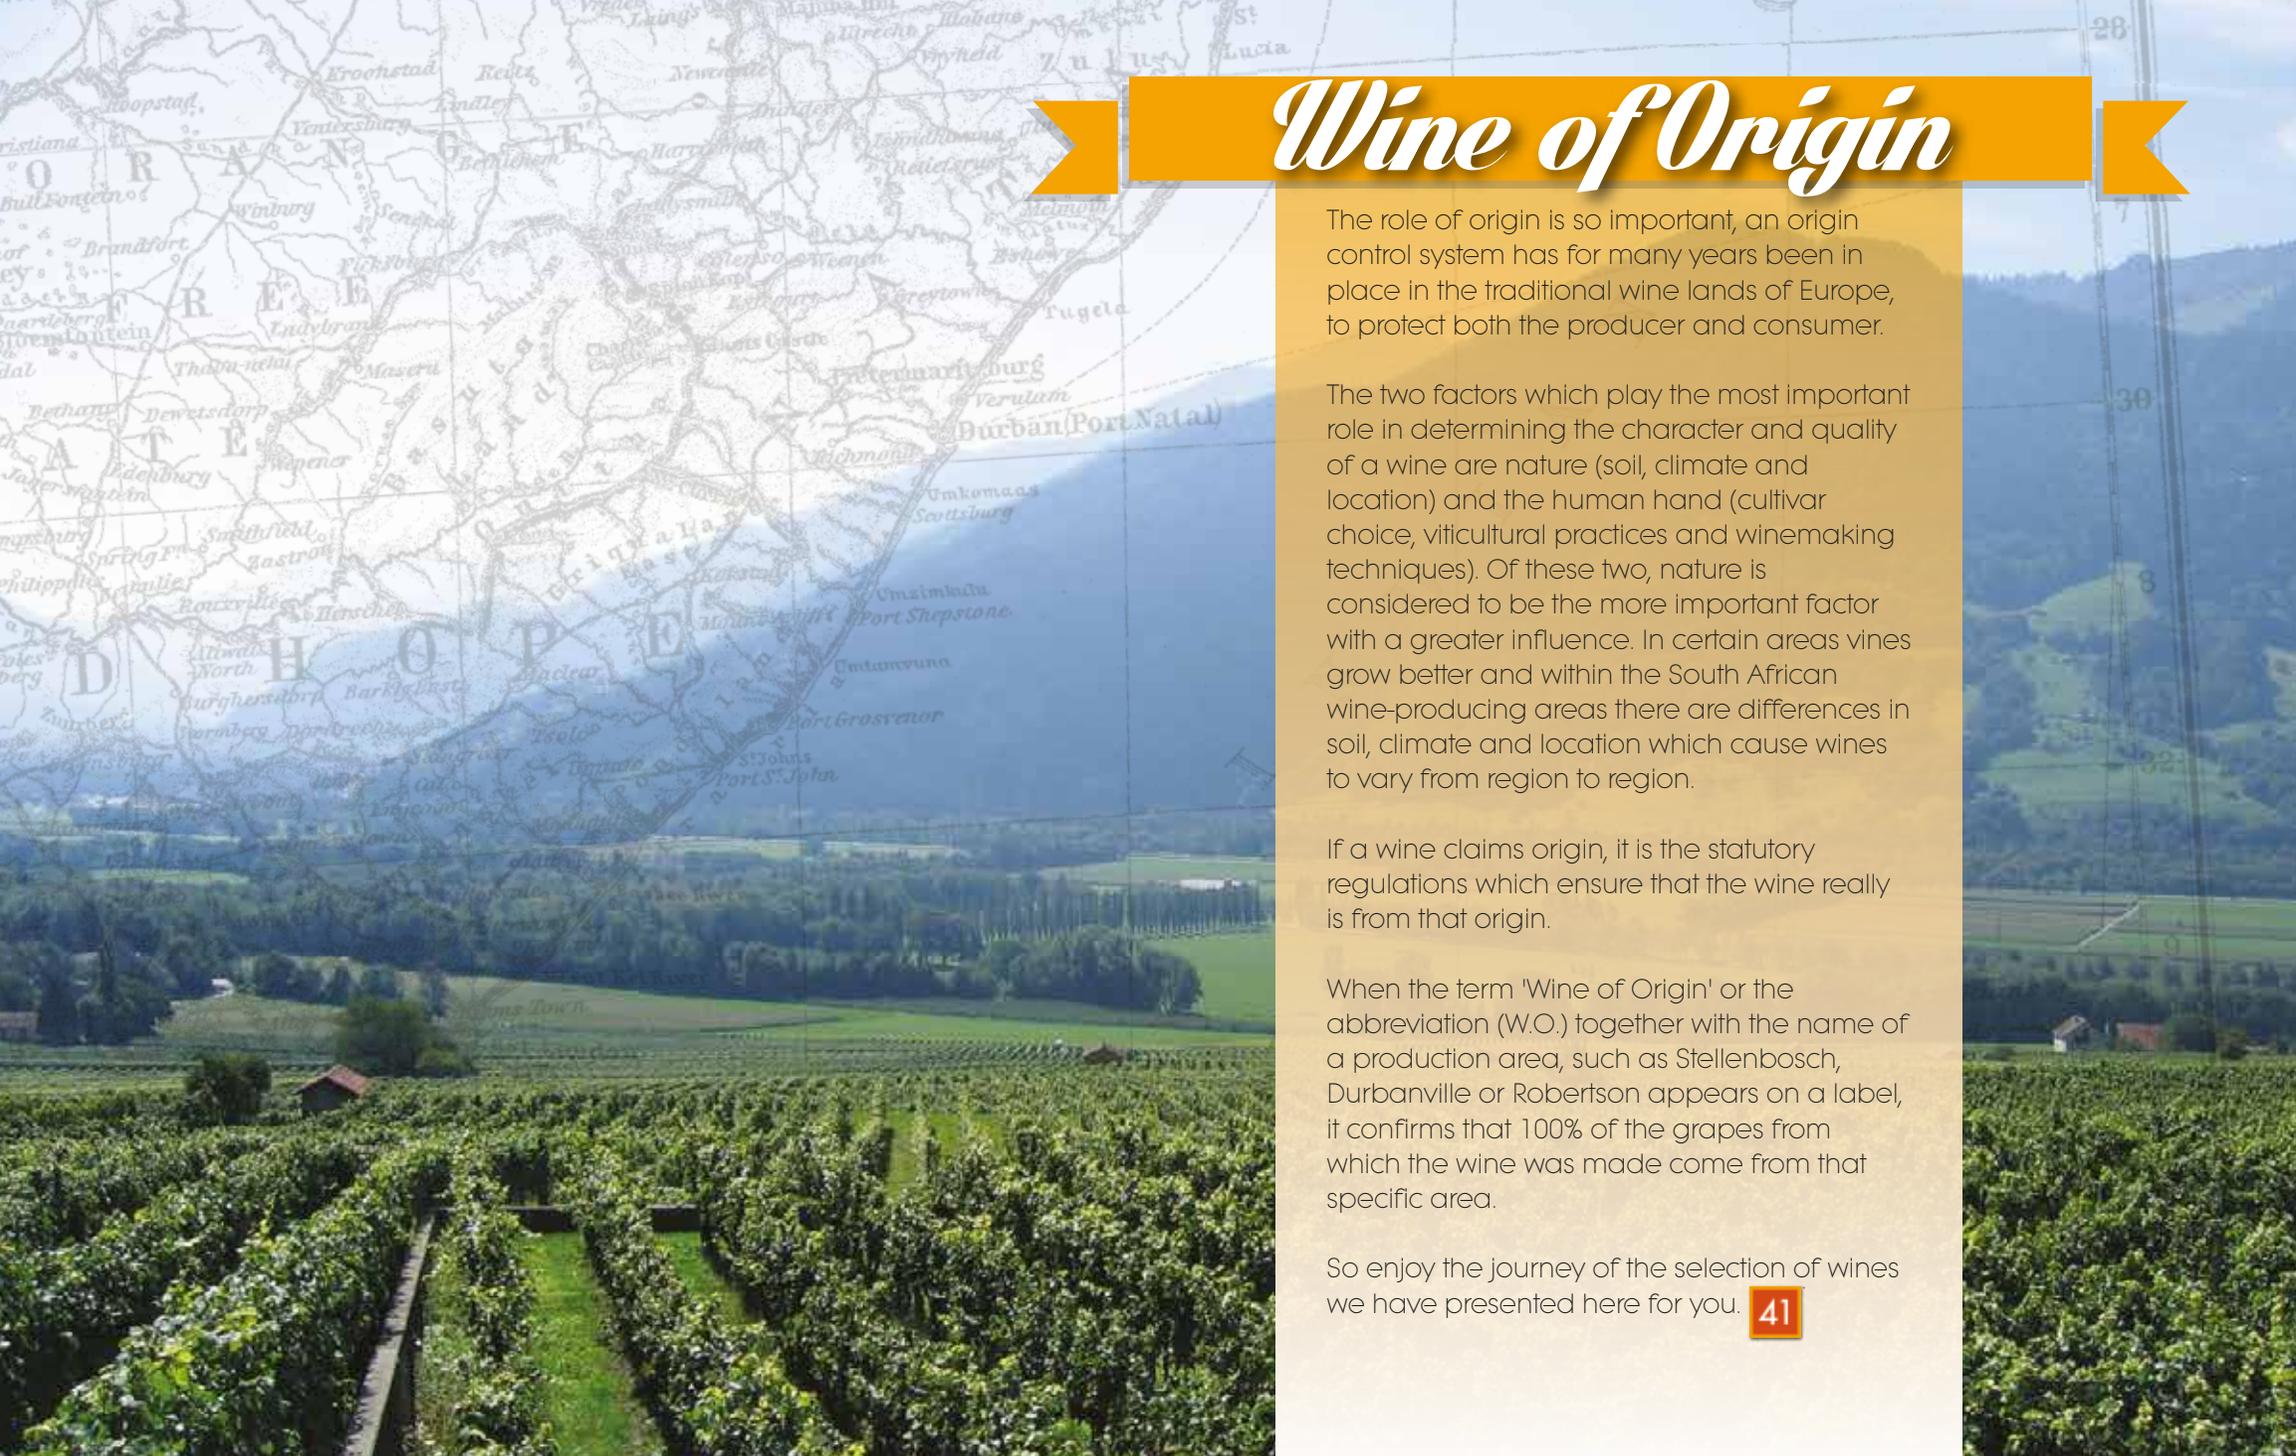

- Gold Award for Best Wine List of the years 2007-2014
- Diamond 2015
- Platinum 2016 - 2017

We have also been effusively praised as one of Pretoria's top seven restaurants.

Wine of Origin

The role of origin is so important, an origin control system has for many years been in place in the traditional wine lands of Europe, to protect both the producer and consumer.

The two factors which play the most important role in determining the character and quality of a wine are nature (soil, climate and location) and the human hand (cultivar choice, viticultural practices and winemaking techniques). Of these two, nature is considered to be the more important factor with a greater influence. In certain areas vines grow better and within the South African wine-producing areas there are differences in soil, climate and location which cause wines to vary from region to region.

If a wine claims origin, it is the statutory regulations which ensure that the wine really is from that origin.

When the term 'Wine of Origin' or the abbreviation (W.O.) together with the name of a production area, such as Stellenbosch, Durbanville or Robertson appears on a label, it confirms that 100% of the grapes from which the wine was made come from that specific area.

So enjoy the journey of the selection of wines we have presented here for you.
